

★ Starred

At Google, we put our users first. From innovative software products like Gmail, YouTube, Chrome, StreetView to pioneering mobile devices like the Android, we build products that organize the world's information and make it universally accessible to our users. The Product Management team works closely with our engineers to guide products from conception to launch. As part of the Product Management team, you bridge the technical and business worlds as you design services that our customers love. You'll work with Googlers from Engineering, Sales, Marketing, and Finance, to name just a few. You have a bias toward action and can break down complex problems into steps that drive product development at Google speed. As a Product Manager, you will be part of shaping Google's next moonshot.

Responsibilities

- Understand and analyze user needs.
- · Research markets and competitors.
- · Work with engineers to define products.
- · Build and launch new products and features.
- Define product vision and future direction.

Minimum qualifications

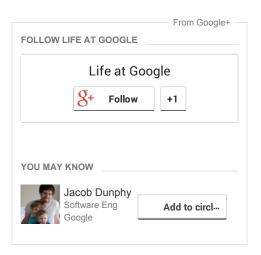

BA/BS degree or equivalent practical experience.

Preferred qualifications

- practical Excellent organizational and analytical skills.
 - Strong technical abilities.
 - Demonstrated capacity for developing and understanding strategy.
 - Interest in creating and analyzing products.
 - Excellent communication skills.

Area

One of the many reasons Google consistently brings innovative, world-changing products to market is because of the collaborative work we do in Product Management. With eyes focused squarely on the future, our team works closely with creative and prolific engineers to help design and develop technologies that improve access to the world's information. We're responsible for guiding products throughout the execution cycle, focusing specifically on analyzing, positioning, packaging, promoting and tailoring our solutions to all the markets where Google does business.
